THE ANDREAN

You are the reporters for this news sheet which tries to keep you in touch with the School of today and the School of yester-year. You will see by this issue that many bits of news came in through the summer months — most encouraging! BUT what about the next issue? — and the next?! Jot down anything of interest you may hear about O.B.'s. Write a note or a penny post-card to The Andrean, at the School, with your news. It all helps to strengthen the "ties" that bind! You might be surprised to learn about the number of reunions that have taken place as the result of a news item in The Andrean. And of course, if you do not keep us posted about a change of address — well?!

ROUND AND ABOUT THE SCHOOL

At this time last year, the news 'round and about high-lighted the physical upheaval of plant and terrain in preparation for new buildings and renovations. A year later, it seems incredible that the new facilities already are an integral part of the School and the wonder is how we got along without them. We have really got a set-up "to the king's taste". It would take too long to describe in detail all the changes that have taken place (You will have to come to see for yourself!) — but here are a few major features. The old Dining Hall (Upper School) and Mac

ROUND AND ABOUT THE SCHOOL (Continued)

House Dining Hall no longer exist. The former, along with kitchens, infirmary, staff quarters, etcetera, has been converted into a boys' residence — called for now — "Fourth House". The latter has been turned into a new infirmary for the whole school (two resident nurses). The new Great Hall (dining) accommodates the whole School. There are no more classrooms in Mac House. These have become dorms, common-rooms, etcetra. All classes are taken in Dunlap Hall and the new classroom wing of the Kenneth Ketchum Auditorium. Classes are no longer held in the basement (Geography Room and the room behind the Little Theatre). Classroom No. 1 (old Maths Room) is now an Art-cum-classroom. No. 3 (old History Room) is now equipped as a third lab. The new Kenneth Ketchum Auditorium with its auxiliary facilities is a superb addition — already well-used. The landscaping around the new buildings, along with new roads, etcetera, has not altered the old beauty of the campus but rather extended it. You will be impressed. Naturally, there remain many little things to be done before complete rehabilitation takes place but to those who were around the School a few weeks before opening day, it seemed miraculous that opening was on schedule and that everything proceeded more-or-less normally (e.g. Dunlap Hall classroom renovations not completed; chairs for the Great Hall arrived at 5.00 a.m. on opening day; new desks for classrooms arrived two weeks after opening — meanwhile make-shift; etcetera)! A new House arrangement has been put into effect. Mac House still has the lower forms (grades 7, 8, 9) but each of the other three Houses has boys from all forms (Third Form up). Upper Sixth boys live in all four Houses and have assumed more responsibility. The whole of Upper Sixth (32) sits at the High Table at lunch-time in the Great Hall and are Table-Heads at other meals. **Football** teams show promise of a good showing this year. Note the dates of L.B.F. games and come on out. The **Stratford** production of "Macbeth" was attended by Third Form and up. The first issue of the new literary magazine, "**Script**" was a creditable effort. Have you seen a copy? The **Ken Ives** have acquired a house on Old Yonge Street, opposite the School. (Ken — after 25 years in the same rooms in Mac House!) The **Stan Macfarlanes** are back from Spain and are "living out" — on Yonge Street — not far north of the School. **Bob Laidlaw** is chipper as ever. Three new Masters have joined the Staff — **Gordon Moffatt** ('26), Latin and Maths, **Courtney Stoate**, French, **James Mainprize**, History and French, **Miss Betty Kinch**, nursing staff. A few weeks ago, the Antique and Classic Car Club of Canada held a judging rally on the Front Quad at the School — interesting diversion for the boys apart from the fact that four football games were in progress at the same time! Never a dull moment 'round and about the School! — or perhaps it depends on the point of view!
